

COLLEGE EXPO

Tuesday, April 19

5:30 – 8:30 PM

**Mack Sports and Exhibition Complex
Hofstra University**

Hempstead, NY (See map and directions on page 4.)

- **Representatives from over 300 colleges and universities plus career schools, military services and banks**
- **Seminars on college admissions, financial aid, student athletes, students with special needs, and selective college admissions**

STUDENTS: Register online at www.gotocollegefairs.com and *print out a barcoded pass* that captures your student data for College Representatives to scan.

Nassau Counselors'

Association

45th Annual College EXPO presented by Nassau Counselors' Association, professional counselors volunteering to serve students of Nassau County. Visit www.nassaucounselors.org.

See page 62 for a College Checklist form before visiting the College Search Table.

Turning Dreams Into Accomplishments

Our Promise of Enduring Value

Since our founding in 1916, St. Joseph's has challenged and inspired students to learn and live boldly, using their knowledge and skills to serve others and lead productive change in the world.

Our impressive students and graduates are a powerful testament to the fulfillment of this promise. Through exceptional teaching, innovative programs, dynamic internship and leadership experiences, and a culture of collaboration and personal engagement, St. Joseph's is readying today's students for tomorrow's opportunities.

TRADITION. INNOVATION. EXCELLENCE.

Welcome to 2016 Spring EXPO

It is our hope that your attendance at Spring EXPO 2016 will be a valuable one. You will have the opportunity to speak with representatives from over 300 colleges, career schools, military services. This personal contact gives you a unique opportunity to acquire first-hand information about an institution and its programs that may not appear in a catalog, brochure or on the Internet. Each year, students learn about a wide range of schools and colleges that would be unknown to them had they not attended this program.

The information you gather at the EXPO will assist you and your school counselor in making your post-high school plans. Be sure to meet with your counselor in a timely fashion to begin this exciting process!

Remember: A well-planned visit is a productive visit. Reviewing this booklet will be very helpful.

HELPFUL HINT: We recommend that you register online at www.gotocollegefairs.com and print out a barcode pass that captures your student data for college representatives to scan.

We will also be presenting the following seminars given by accomplished professionals:

Financial Aid	Seminar Location A	6:15 PM and 8:00 PM
Students with Special Needs	Seminar Location B	6:45 PM
Highly Competitive College Admissions	Seminar Location A	7:15 PM
Student Athletes & the NCAA	Seminar Location B	7:45 PM

“DROP-BY” COUNSELING CENTERS ARE AVAILABLE THROUGHOUT THE EVENING:

- **College Search:** Coordinated by Christine Krut, New York Institute of Technology. The College Search is staffed by professional High School Counselors with Technical Support by Hofstra University
- **Students with Special Needs:** Coordinated by Allen Tinkler, LD Consultant, and Susan Sklar, Veteran School Counselor and Hofstra Professor
- **ACCESS VR (Adult Career & Continuing Ed Services–Vocational Rehabilitation):** Coordinated by Anthony Fitzgerald, ACCES-VR
- **Financial Aid / Scholarships:** Coordinated by Erica Follick, Stony Brook University, as well as various Hofstra University Financial Aid Counselors
- **Historically Black Colleges:** Coordinated by Kevin Kentish, United Negro College Fund
- **Student Athletes / NCAA:** Coordinated by Michael Grasso, Molloy College

The success of this College EXPO is due in large part to the commitment of many wonderful professionals who volunteer their time tirelessly before, during, and after the event. We extend our sincere gratitude to the following people at Hofstra University for contributing to the success of this event: the entire Hofstra IT staff for their technical expertise; Melanie Mardirossian, Director of Marketing and Communications, and Andrew Cohen for offering us endless support; Ryan Watson of Sports Facilities; and Campus Dining by Compass Group. Thanks to Gloria Schetty-Plante and Donna Lonas of Laurel Publications for this comprehensive publication, to Michael Levy and Elaine DiBlasio, Minuteman Press of Levittown, for their patience and good humor; to all of the seminar speakers and “drop-by” counseling center volunteers, and to all the student volunteers who dedicated their time to the EXPO. We also want to thank the Executive Board of Nassau Counselors’ Association for its unwavering confidence and support.

and give yourself plenty of time
to take advantage of all EXPO has to offer!**

Nassau Counselors' Association President's Message

On behalf of the Nassau Counselors' Association (NCA), I am honored to welcome you to the 2016 SPRING COLLEGE EXPO!

We hope that you find today's event both informative and enjoyable. The Spring College EXPO is designed to help you as you begin your journey toward college and post-secondary planning – one that will help you attain your educational and co-curricular goals in preparation for a career.

The representatives who are here today represent a vast cross-section of colleges, universities, career schools and military organizations throughout the United States. They are eager to meet you and to answer all of your questions. They can provide you with information that will assist you in your search. This is an important opportunity for you and your family to ask questions and receive the most pertinent and current information about the colleges and universities that you are considering. We are very pleased with the large and diverse turnout of institutions represented at the EXPO and we thank them for their enthusiasm and attendance.

I want to also thank committee chairs Michael Hearne, Sunil Samuel and Jaclyn Forman for the long hours they dedicated to planning this event. A thank you is also in order for the EXPO committee members and all the NCA volunteers that help make this great event possible.

NCA is an organization of approximately 600 professionals, representing a variety of counseling fields dedicated to serving the students of Nassau County by bringing you wonderful programs such as this one. Be sure to bring back all that you have gleaned from your EXPO visit to your school counselor, your most valuable resource in your post high school planning.

Best of luck in your college search and enjoy your visit to the Spring College EXPO!

Warm regards,

Joy-Anne D'Anca
President, Nassau Counselors' Association

Questions to Ask at the Spring College EXPO

College Choice Guide

How do you select the right college for you? Ask these questions to narrow your options.

Academics and Career Planning

- Does this college offer the major that interests me? How strong is this school's program?
- Will my AP and previous college credits transfer?
- What is the average number of students in each class?
- What percentage of students graduate in four years?
- How easy is it to get the courses I want at the times I want?
- What career planning services are available?
- What does the school do to help graduates find jobs? Does the school provide free job placement services?
- What percentage of graduates find jobs?

Finances

- How much is tuition? Room and board?
- Are payment plans available?
- What kind of financial aid does the school offer?
- Are there work-study programs?
- What kind of refund can I get if I have to drop out?

Housing and Campus Resources

- Where do freshmen/sophomores/juniors/seniors live?
- How much is housing? Is it easy to get on-campus housing?
- What kind of meal plan is offered in the dorms?
- How many computers/computer labs are there? Are they up to date?
- What is the quality of library and research facilities?
- What kind of health facilities and services does the college offer?

Student Life

- How diverse is the campus?
- What percentage of the students commute?
- What student organizations are active on campus?
- What kind of recreational activities are available?
- What varsity and intramural sports are on campus?
- What kind of transportation is available on campus?
- How safe is the campus? Crime statistics?

Tips on Planning Your Campus Visit

Pick a normal school day to visit. Avoid graduation, three-day weekends and open houses. Contact the school and confirm their tour, visit and interview policies.

Stay in a dorm overnight. You'll get a chance to talk with current students and find out what life on campus is really like.

Bring along a list of questions for each school. After visiting a few schools, details can get blurry. List the points about the school that stand out.

Go to class. How do you feel about the size of the classes, the instructors and the level of competition?

Finding Information

Know where to look and you'll get the facts you need.

- Consult your guidance counselor. He/she will have college guidebooks and brochures.
- Surf the Internet. Visit the universities' websites.
- Contact the college's admissions office. They can put you in touch with a student volunteer who will answer your questions.
- Arrange an informational interview with an alumnus. Call the school's alumni association for names

How to Make the Most of Your Visit to the Spring 2016 College EXPO

The Spring College EXPO Committee has prepared this chart to help you record information about the colleges and schools you are investigating. Decide ahead of time which college representatives you want to speak with so that you may make the most of your visit.

Points To Consider When Selecting A College

You should try to select a college which matches your interests and needs as closely as possible. To do this, you should consider the ways in which colleges differ. Listed below are ten areas of difference from one college to another. If you can utilize these ten items to describe what you want in a college, you should begin to narrow your selection.

1. PROGRAMS OF STUDY. Not all colleges offer all major fields of study. You should choose a field which interests you, and will prepare you for a particular career, and then examine colleges and universities which offer that field. If you have narrowed your interest to two or three majors, select a college which offers them all. If you are undecided as to a major, select a college which allows you to begin without declaring a major, and which offers good academic advising and counseling.

2. LOCATION. One important decision is whether you will live on campus or commute. If you select a college near home, you still may live on campus if there are dorms. If you select a college away from home, you will probably live on campus, although some colleges allow students to live in nearby apartments. The second aspect of location is the actual setting of the college – is it rural, urban, or suburban? This difference could greatly affect the lifestyle you will take part in during the next four years. Think seriously about where you want to live.

3. SIZE. College and universities differ in size of enrollment from several hundred students to tens of thousands. Obviously, there can be tremendous differences, both educationally and socially, in attending different size institutions. There are advantages to small, large, and medium sized colleges. The important thing is to decide what you want. Small colleges can offer a personalized education, and you can get to know most of the students and faculty. Large institutions can offer a greater variety of courses and often have more elaborate facilities.

4. TYPE. There are several differences which might be important to you. Some colleges are public while some are private. Public institutions are tax supported and offer lower tuition. Many public (and some private) institutions are two-year colleges offering terminal as well as transfer programs. If you attend a two-year institution, plan your program of studies so you can transfer to a four-year college if you want to.

5. COST. The cost of higher education is a serious consideration but it should not be the major determining factor of where you will attend. All colleges and universities have financial aid programs to help meet the cost of

attending. Make your decision on the factors listed above, and then see how the colleges you select can help you meet the costs.

6. REPUTATION. Some institutions have established reputations over time for being excellent in certain fields. Others are generally thought to be good in everything they do. And some are known more for sports than for academics. Be careful not to make a decision on reputation alone. Find out if the college warrants the reputation it has. Just because an institution has been around for a hundred years does not automatically make it good. However, many old, established institutions have earned their reputations and offer an excellent education.

7. CAMPUS LIFE. When you go to college, a relatively small portion of your time is actually spent in classrooms. Other time is spent in the library and laboratory. However, a great deal of time is spent in the dorms, the student center, the cafeteria, and wherever other students gather. The campus life outside of class is very important, and you should try to determine what that life is like at the college you plan to attend.

8. SPORTS, ATHLETIC FACILITIES, FITNESS AND WELLNESS CENTERS. Colleges recognize the importance of physical exercise for their students. Most colleges provide excellent athletic facilities for intercollegiate and intramural sports. For students who wish to get and stay in shape, receive nutrition counseling, and take classes in aerobics or yoga, fitness and wellness centers abound on college campuses. Now recreational centers offer features such as hot tubs, pools with water slides, climbing walls and karate classes for those seeking even more opportunities to stay fit.

9. RELIGIOUS AFFILIATION. In the early days of American higher education, most colleges had a strong religious affiliation. Today, the majority of institutions are public, with no church relationship. Some private colleges have maintained church affiliation, although attendance at these colleges is usually open to students of all religions. Almost all colleges offer a variety of religious services either on campus or in the immediate vicinity.

10. FRIENDS. You do not have to attend college where your friends do. However, if you have friends or relatives who have attended colleges you are considering, ask them what they like and dislike about the college. Remember, their interests may not be the same as yours, but your friends are a good source of honest information.

PROJECT SUMMER:

Building Blocks for a Successful College Application

A Message for High School Students

By Robert Pertusati, Associate Dean, Director of Recruitment,
Undergraduate Admissions, Stony Brook University

If you're planning to apply to college in the next several years, you're likely to face increasing competition as the number of applicants is expected to continue to increase. That means an impressive college application is critical during the admissions process.

Much like developing an eye-catching employment resume, you must set yourself apart by carefully packaging your talents and accomplishments to catch the attention of savvy college admission officers who review and render decisions on thousands of applications.

While academic credentials and college entrance exams continue to play important roles in determining "fit" between student and college, there is increased attention paid to those unique activities you involve yourself in beyond the classroom. That includes your summer choices.

If you're eager to step away from an academic setting, you will find many opportunities to enhance your applications and provide you with life-long learning. These include volunteerism and community service.

Colleges today are placing great emphasis on how students give back to their communities. Not only does this demonstrate commitment to a cause and concern with helping others, but it also implies that students will continue to be active participants in their new college campus communities.

In reviewing thousands of college applications each year and in interviewing hundreds of prospective students, I often learn of so many incredible examples of how students support their communities. These include: participating in hurricane relief efforts at the site of the disaster, staffing food shelters, participating in literacy programs for both children and adults, as well as playing leadership roles in local houses of worship.

Many other students serve as mentors to younger children in numerous community-based programs. Volunteerism in community service speaks to your character, leadership and integrity – all key elements of successful college-bound students.

You can also choose to demonstrate your readiness for college by taking advantage of academic opportunities, which include enrolling in classes and participating in summer research programs on college campuses.

Not only does this provide access to intellectually stimulating experiences, but it also engages you in culturally rich exchanges with college students and faculty. Earning college credit during the summer may be applied to your academic record at institutions across

the nation and demonstrate your interest and ability to master challenges.

Research programs encourage you to actively participate in the learning process by asking questions such as "why" and "under what circumstances does this hold true" as you test the accuracy and validity of information in which they are presented.

During college planning presentations, I regularly ask high school students if they accept or question information that teachers present them in class. Their responses are generally mixed. However, I encourage them to question that information. Learning should be active, not passive.

Many students seek opportunities to study abroad in countries across the globe. Not only does this provide insight into other cultures, but also allows you to put to good use your language skills acquired in high school foreign language classes. These experiences are both academically enriching and a great deal of fun. Group tours are the most popular as they are well organized and structured. In many cases, you may take formal classes in academic institutions within these countries, or simply participate in cultural experiences that will expand your intellectual curiosities.

Now that you have availed yourself of these dynamic opportunities, what's next? It is important that you be prepared to discuss these experiences with admissions officers during college interviews.

We enjoy being engaged in conversations with you and want you to share with us your passions – what makes you unique. Tell us what you've learned from these summer experiences and how they have impacted you.

Very often your college essay will be another vehicle through which you can describe to us the depth and impact of your summer journey. Be creative, be direct, be sincere! Don't tell us what you think we want to hear, but rather what it is you truly have to say. After all, we are "people people" not the "gate keepers" we are often accused of being. We enjoy learning of your journeys both in and beyond the classroom and are sincerely committed to helping you find the right "fit" in the college admissions process. Seek out those opportunities that match your interests and goals and you will find that the key to your college success begins with self-discovery and active participation. Enjoy the journey!

Challenge Your Mind, Not Your Budget.

With today's most sought-after programs, small classes, valuable scholarships, flexible schedules and a complete college experience, Suffolk offers countless opportunities to grow both academically and personally.

What's more, by choosing to enroll at here first, our students often save tens of thousands of dollars while gaining the opportunity to grow, graduate and transfer to some of the nation's most prestigious colleges and universities.

Find out why making Suffolk your first choice is a decision that's second to none.

Financial Aid: What is Available and How to Apply for It

Concerned about how you'll pay for your college education? Of course you are. In these scary times, many students and their parents are wondering how they'll be able to make it work.

One of the most important things you can do is to begin the college application process early. Acceptance into a college degree program is a requirement to receive financial aid. Colleges can't officially offer you a financial aid package until you've been admitted.

All colleges will require you to complete the Free Application for Federal Student Aid (FAFSA) to be considered for financial aid. Many schools also require additional forms, such as the CSS Profile Form or other financial worksheets to help them make a determination about your need. Filing these forms as early as possible is the key to maximizing your chances of getting money. The FAFSA should be filled out as soon after October 1st of your senior year in high school as possible. Contact the college's financial aid office to find out their recommended filing date for both the FAFSA and any other forms that they require. You don't want to lose out on money just because you missed an important deadline.

Most financial aid for college is awarded on the basis of a student's financial need, which is determined through the use of these forms. The FAFSA can be filed online at www.fafsa.ed.gov and is a relatively simple form for most families. Having a copy of your current year's tax return right beside you is the trick. It's a user-friendly form that you DO NOT have to pay someone to fill out for you. If you run into trouble with a particular question or are not sure how to answer something, the financial aid offices at the colleges where you are applying will be happy to help you . . . for free!

Financial aid comes from many different sources and in many different forms:

SCHOLARSHIPS

There are scholarships and grants awarded by some colleges based on other criteria besides financial need. These are usually for academic performance, athletic ability, or in recognition of some other form of achievement. Basically, the student demonstrates a quality that the college values and they want to recognize that quality through some form of scholarship.

These awards vary greatly from one institution to another, so it is important to research all the types of scholarships that the colleges you are applying to offer their students. Looking carefully through the college's websites is a terrific way to learn about scholarships and the criteria needed to qualify. Be sure to check out

whether they are renewable each year and what the student will need to do in order to keep them.

NEED-BASED AWARDS

For many students, help with tuition costs will be based on financial need. This aid may come from the federal government, aid from the state in which you live, or from private funds from the college you plan to attend.

AID COMES IN THREE BASIC TYPES

Grants

Grants are a desirable type of funding because they don't have to be paid back! They can come from the Federal government, state government and the institutions themselves.

To apply for Federal grants, the student completes the FAFSA to determine eligibility for the Pell or Supplemental Educational Opportunities Grant (SEOG).

To apply for the New York State Tuition Assistance Program (TAP) grant, the student starts with the FAFSA, then will be asked to complete a TAP application.

To apply for grants from the colleges themselves, students should work closely with the financial aid offices at the colleges where they are applying to make sure that all necessary forms and deadlines are met.

Work Opportunities

Most students find that holding a part-time job while attending college is critical to paying for their educations. Students may qualify to work through the *Federal Work Study (FWS)* program. Typically, the students work 10-20 hours a week, on campus, in exchange for pay. The FAFSA form helps to determine eligibility for FWS. If the student does not qualify for FWS, most colleges also offer regular, on-campus student employment to students.

Loans

Loans are available to students to help them pay for their college education. It is important to remember that loans do have to be paid back. Some loans do allow students to hold off on repayment until after the student graduates or stops going to school.

Federal Stafford Loans/Federal Direct Stafford Loans are guaranteed for every student who is enrolled in a college or approved certificate program at least 1/2 time (6 credits a semester). With each year in school, the maximum loan eligibility increases and students are able to borrow more funds. These are student loans.

(continued on page 18)

FINANCIAL AID

(continued from page 17)

Parents do not need to co-sign for students in order to borrow through this program. However, parent income information for dependent students is required to determine the type of loan that a student will receive.

Stafford loans come in two types: *subsidized* and *unsubsidized*. There are slight variations in the interest payments that students will make, but the biggest distinction between subsidized and unsubsidized loans is: When does the interest become due? In a subsidized loan, students do not pay interest or principal on the loan while they are in school, then they get a six-month grace period after graduation before they can take up to 10 years to pay the money back. In an unsubsidized loan, students are responsible for making interest payments on the loan while they attend school.

Colleges will determine your eligibility for subsidized or unsubsidized Stafford loans based on the FAFSA information you completed, how much need you demonstrate and how that need compares with the cost of education at the school.

Another loan that is available for students is called the **Carl D. Perkins National Direct Student Loan**. Awarded by some colleges this program provides low interest loans based on need. No repayment of principal or interest is required while the student is in college and is taking six credits or more per semester. The loan is repaid at a low interest rate beginning six months after graduation.

Finally, the **Federal Parent Loan for Undergraduate Study (PLUS)** is available for parents of dependent students. Parents who based on a credit analysis qualify for the PLUS loan, are permitted to borrow money on behalf of their children. They may borrow up to the entire cost of education, minus any aid that the child receives. Parents will choose whether they want the loan payments to begin immediately or if they want the loan to be deferred until after their child graduates from his/her undergraduate program.

HOW IS FINANCIAL NEED DETERMINED?

When students complete the FAFSA, the information they provide is run through a methodology prepared by the Federal government and an Estimated Family Contribution (EFC) is determined for each student. This is not the minimum or maximum amount that a student has to pay, but rather represents the minimum amount a

child CAN contribute toward his/her education, according to the Federal Government.

Based on the EFC, colleges then make determinations about eligibility for grants, work and loan awards at their institutions. They use the EFC to create a Financial Aid Package for students.

THE FINANCIAL AID PACKAGE

Most students who are eligible for assistance receive what is referred to as a "financial-aid package." This "package" usually is comprised of several types of aid – grants, jobs and loans, which in total meet the student's unmet financial need.

Colleges can only prepare and send a financial-aid package to admitted students. Once students receive their award letters, they begin to compare one offer to another to determine the affordability of a particular school.

SO...WHAT SHOULD I DO NOW?

You're off to a great start by attending the EXPO today! Selecting the institutions to which you'll apply is the first step. Don't forget to include 'financial fit' in the mix, along with academic and social fit as you consider among your choices.

You can begin to research what each institution on your short list offers in the way of scholarships and financial aid, pay attention to deadlines and required forms and begin to formulate a list of questions you have regarding financial aid.

In your senior year of high school, as soon after October 1st as possible, you'll fill out the FAFSA form. And that will start the ball rolling.

You'll want to follow all instructions carefully, pay attention to important deadlines and keep all your information in a safe and organized place.

OTHER SOURCES OF FINANCIAL AID

There are other sources of financial aid which have not been mentioned here. Many religious and community organizations offer scholarships. Many companies offer educational aid for their employees' sons and daughters. Start researching scholarship and grant opportunities on the web. And remember . . . DON'T PAY ANYONE TO FIND YOU MONEY! You can do this on your own.

GOOD LUCK!

Financial Information

ISLAND FEDERAL CREDIT UNION
120 Motor Parkway, Hauppauge, NY 11788
(631) 851-1100
www.islandfcu.com

Island Federal Credit Union will award \$50,000 in scholarships to high school seniors planning to continue their education. To be eligible, students must have an account with Island Federal Credit Union. A debit card and checking account are required; however, there is no minimum balance needed to open or maintain the account. The account must be established in the student's name at the time the entry form is submitted; be a high school senior at the time the entry form is submitted; have received acceptance into a full-time course of undergraduate study as a Freshman at a University, College, Community College, or recognized vocational school. To enter, print out an application from our website islandfcu.com and return it to Island FCU. All winners will be notified via mail and a list of recipients will be published in the Island Quarterly newsletter, as well as displayed in our branch offices.

**Announcing the
NCA 2016
Fall College EXPO
Sunday, September 18
12:00 noon to 3:00 PM
SUNY Old Westbury
Physical Education Complex**

*SUNY Old Westbury is located
north of the LIE on Route 107*

Learn And Enjoy
Learn And Enjoy

The College Interview Checklist

✓ Schedule Your Interview in Advance

- Choose a time when classes are in session
- Select a time when another activity of interest is going on (football game, theater production, etc.)
- Avoid dropping in

✓ Make Overnight Arrangements if Necessary

- Request college to send list of area hotels
- Ask if college has spend-a-night programs in residence halls or a “buddy program”
- Ask about places to eat on campus

✓ Be Prepared

- Know the basic facts about the college you are visiting
- Obtain college literature prior to your visit
- Be prepared to talk about yourself, your interests, goals, academic record
- Know what it is you want from a college or university
- Prepare your questions in advance

✓ Parents are Welcome

- Discuss in advance the questions you will ask so they don't get repeated by your parents
- Don't leave it to your parents to dominate the discussion or work at impressing the interviewer

✓ Dress Appropriately

- Simple, neat, comfortable
- Not too casual, not too formal, when in doubt, go conservative
- Avoid flashy, bulky, noisy
- Remove hat!!
- Limit the baggage (backpacks, cases, bags, etc.)

✓ Academic Record

- Be prepared to discuss your academic record (strengths, weaknesses, trends, excessive absences, etc.)
- Bring transcript and test scores with you in case interviewer asks for them

✓ Portfolios, Resumes, Videos, Recommendations

- Bring these items to an interview only if requested, otherwise, save them for your application packet
- Ask ahead of time if your interviewer would like to see your work or ask if appointment can be coordinated with someone who does (coach, art faculty)
- Don't oversell yourself with “packaging”

✓ Questions

- Have some! This demonstrates interest
- Write your questions down and bring them to your interview
- Be prepared to answer questions as well

✓ Arrange for a Campus Tour

- Ask questions of your tour guides – they are usually students
- Visit the important places – library, residence hall, lecture room, labs, studios, dining facilities, etc.
- Get a feel for the campus and students
- Is this where you want to spend the next few years?

✓ Follow-Up

- Get interviewer's name (and e-mail address)
- Follow up with a short, simple thank you note
- Don't be shy – write or call later on if you have questions about the college or the status of your application
- Don't be a pest

✓ Be Yourself

- An interview is a conversation not an inquisition
- Relax, show confidence and interest
- Maintain eye contact
- Confident hand shake
- Your interviewer is just another human

Robert Pertusati, Sr. Associate Dean and Director of Recruitment, Undergraduate Admissions, Stony Brook University
