LONG ISLAND • BROOKLYN • ONLINE

Welcome to the 2018 Spring EXPO

It is our hope that your attendance at Spring EXPO 2018 will be a valuable one. You will have the opportunity to speak with representatives from over 300 colleges, career schools, military services. This personal contact gives you a unique opportunity to acquire first-hand information about an institution and its programs that may not appear in catalogs, brochures or on the Internet. Each year, students learn a wide range of information about schools and colleges that would be unknown to them had they not attended this program.

The information you gather at the EXPO will assist you and your school counselor in making your post-high school plans. Be sure to meet with your counselor in a timely fashion to begin this exciting process!

Remember: A well-planned visit is a productive visit. Reviewing this booklet will be very helpful.

HELPFUL HINT: We recommend that you register online at www.gotocollegefairs.com and print out a barcode pass that captures your student data for college representatives to scan.

We will also be presenting the following seminars given by accomplished professionals:

Financial Aid	Seminar Location A	6:15 PM and 8:00 PM
Students with Special Needs	Seminar Location B	6:45 PM
College Admissions	Seminar Location A	7:15 PM
Student Athletes & the NCAA	Seminar Location B	7:45 PM

“DROP-BY” COUNSELING CENTERS ARE AVAILABLE THROUGHOUT THE EVENING:

- **College Search:** Coordinated by Christine Krut, New York Institute of Technology, and staffed by professional High School Counselors with Technical Support by Hofstra University
- **Students with Special Needs:** Coordinated by Allen Tinkler, LD Consultant, and Susan Sklar, Veteran School Counselor and Hofstra Professor
- **Financial Aid / Scholarships:** Coordinated by Amy Thompson, St. Joseph’s College, and staffed by Financial Aid counselors from local colleges and universities
- **Historically Black Colleges:** Coordinated by Tara Richards, District Director of Guidance & Chief Information Officer of Valley Stream Central High School District
- **Student Athletes / NCAA:** Coordinated by Samantha Hegemann, Hofstra University

The success of this College EXPO is due in large part to the commitment of many wonderful professionals who volunteer their time tirelessly before, during, and after the event. We extend our sincere gratitude to the following people at Hofstra University for contributing to the success of this event: the entire Hofstra IT staff for their technical expertise; Andrew Cohen for offering us endless support; Ryan Watson of Sports Facilities; and Campus Dining by Compass Group. Thanks to Gloria Schetty-Plante and Donna Lonas of Laurel Publications for this comprehensive publication, to Michael Levy and Elaine DiBlasio, Minuteman Press of Levittown, for their patience and good humor; to all of the seminar speakers and “drop-by” counseling center volunteers, and to all the volunteers who dedicated their time to the EXPO. We also want to thank the Executive Board of Nassau Counselors’ Association for its unwavering confidence and support.

EXPO 2018 Chairpersons

Jaclyn Best, School Counselor, Harborfields High School

and give yourself plenty of time
to take advantage of all EXPO has to offer!**

Nassau Counselors' Association President's Message

Dear Attendees:

On behalf of the Nassau Counselors' Association, it is my pleasure to welcome you to the 2018 Spring College EXPO. We hope that you will find today's event both informative and enjoyable.

The Spring College EXPO is designed to help assist you in planning for your post-secondary opportunities. The representatives who are here today represent a vast cross-section of colleges, universities, career schools and military organizations throughout the United States. They are eager to meet you, answer all of your questions and provide the information that will guide you throughout the college application process. This is a wonderful opportunity for you and your family to ask questions and receive the most pertinent and current information about the institutions that you are considering. We have also scheduled workshops throughout the day presented by experts in their fields. We hope you take advantage of attending the workshops and have a positive experience at the EXPO.

The Spring EXPO would not be made possible if it were not for our fabulous NCA co-chairs Sunil Samuel and Jaclyn Best and I owe them a huge THANK YOU! As one of our largest events, the Fall EXPO takes an enormous amount of time and dedication to coordinate, and their expertise in organizing this event is truly irreplaceable. A huge thank you is also extended to our volunteer coordinator, Donna Orleman, for organizing all the wonderful volunteers you see here today. We would also like to thank Hofstra University for contributing to the success of this event by offering their gracious hospitality.

Best of luck as you embark on this exciting journey and we hope that you enjoy your visit to the 2018 NCA Spring College EXPO – we're excited that you're here!

Sincerely,

Sue Moller
President, 2017-2018

Points to Consider when Selecting A College

You should try to select a college which matches your interests and needs as closely as possible. To do this, you should consider the ways in which colleges differ. Listed below are ten areas of difference from one college to another. If you can utilize these ten items to describe what you want in a college, you should begin to narrow your selection.

1. PROGRAMS OF STUDY. Not all colleges offer all major fields of study. You should choose a field which interests you, and will prepare you for a particular career, and then examine colleges and universities which offer that field. If you have narrowed your interest to two or three majors, select a college which offers them all. If you are undecided as to a major, select a college which allows you to begin without declaring a major, and which offers good academic advising and counseling.

2. LOCATION. One important decision is whether you will live on campus or commute. If you select a college near home, you still may live on campus if there are dorms. If you select a college away from home, you will probably live on campus, although some colleges allow students to live in nearby apartments. The second aspect of location is the actual setting of the college – is it rural, urban, or suburban? This difference could greatly affect the lifestyle you will take part in during the next four years. Think seriously about where you want to live.

3. SIZE. College and universities differ in size of enrollment from several hundred students to tens of thousands. Obviously, there can be tremendous differences, both educationally and socially, in attending different size institutions. There are advantages to small, large, and medium sized colleges. The important thing is to decide what you want. Small colleges can offer a personalized education, and you can get to know most of the students and faculty. Large institutions can offer a greater variety of courses and often have more elaborate facilities.

4. REPUTATION. Some institutions have established reputations over time for being excellent in certain fields. Others are generally thought to be good in everything they do. And some are known more for sports than for academics. Be careful not to make a decision on reputation alone. Find out if the college warrants the reputation it has. Just because an institution has been around for a hundred years does not automatically make it good. However, many old, established institutions have earned their reputations and offer an excellent education.

5. CAMPUS LIFE. When you go to college, a relatively small portion of your time is actually spent in classrooms. Other time is spent in the library and laboratory. However, a great deal of time is spent in the dorms, the student center, the cafeteria, and wherever other students gather. The campus life outside of class is very important, and you should try to determine what that life is like at the college you plan to attend.

6. TYPE. There are several differences which might be important to you. Some colleges are public while some are private. Public institutions are tax supported and offer lower tuition. Many public (and some private) institutions are two-year colleges offering terminal as well as transfer programs. If you attend a two-year institution, plan your program of studies so you can transfer to a four-year college if you want to.

7. COED OR SINGLE SEX. There was a time when many colleges were for men only or women only. Today, the overwhelming majority of college are coed. Single sex institutions still exist, and some students prefer to attend those institutions.

8. RELIGIOUS AFFILIATION. In the early days of American higher education, most colleges had a strong religious affiliation. Today, the majority of institutions are public, with no church relationship. Some private colleges have maintained church affiliation, although attendance at these colleges is usually open to students of all religions. Almost all colleges offer a variety of religious services either on campus or in the immediate vicinity.

9. FRIENDS. You do not have to attend college where your friends do. However, if you have friends or relatives who have attended colleges you are considering, ask them what they like and dislike about the college. Remember, their interests may not be the same as yours, but your friends are a good source of honest information.

10. COST. The cost of higher education is a serious consideration but it should not be the major determining factor of where you will attend. All colleges and universities have financial aid programs to help meet the cost of attending. Make your decision on the factors listed above, and then see how the colleges you select can help you meet the costs.

Questions to Ask College Counselors at the EXPO

College Choice Guide

How do you select the right college for you?

Ask these questions to narrow your options.

Academics and Career Planning

- Does this college offer the major that interests me? How strong is this school's program?
- Will my AP and previous college credits transfer?
- What is the average number of students in each class?
- What percentage of students graduate in 4 years?
- How easy is it to get the courses I want at the times I want?
- What career planning services are available?
- What does the school do to help graduates find jobs? Does the school provide free job placement services?
- What percentage of graduates find jobs?

Finances

- How much is tuition? Room and board?
- Are payment plans available?
- What kind of financial aid does the school offer?
- Are there work-study programs?
- What kind of refund can I get if I have to drop out?

Housing and Campus Resources

- Where do freshmen/sophomores/juniors/seniors live?
- How much is housing? Is it easy to get on-campus housing?
- What kind of meal plan is offered in the dorms?
- What type of IT facilities are available?
- What library and research facilities can students use?
- What health and fitness facilities are on campus?

Student Life

- How diverse is the campus?
- What percentage of the students commute?
- What student organizations are active on campus?
- What varsity and intramural sports are on campus?
- What kind of transportation is available on campus?
- How safe is the campus? Crime statistics?

Tips on Planning Your Campus Visit

Pick a normal school day to visit. Avoid graduation, three-day weekends and open houses. Contact the school and confirm their tour, visit and interview policies.

Stay in a dorm overnight. You'll get a chance to talk with current students and find out what life on campus is really like.

Bring along a list of questions for each school. After visiting a few schools, details can get blurry. List the points about the school that stand out.

Go to class. How do you feel about the size of the classes, the instructors and the level of competition?

Finding Information

Know where to look and you'll get the facts you need.

- Consult your school counselor. He/she will have college guidebooks and brochures.
- Surf the Internet. Visit the universities' websites.
- Contact the college's admissions office. They can put you in touch with a student volunteer who will answer your questions.
- Arrange an informational interview with an alumnus. Call the school's alumni association for names

**For more tips, visit
www.fastweb.com**

How to Make the Most of Your Visit to the Fall College EXPO

This chart will help you record information about the colleges and schools you are investigating. Decide ahead of time which college representatives you want to speak with so that you may make the most of your visit.

Challenge Your Mind, Not Your Budget.

With today's most sought-after programs, small classes, valuable scholarships, flexible schedules and a complete college experience, Suffolk offers countless opportunities to grow both academically and personally.

What's more, by choosing to enroll at here first, our students often save tens of thousands of dollars while gaining the opportunity to grow, graduate and transfer to some of the nation's most prestigious colleges and universities.

Find out why making Suffolk your first choice is a decision that's second to none.

FINANCIAL INFORMATION

ISLAND FEDERAL CREDIT UNION
120 Motor Parkway, Hauppauge, NY 11788
(631) 851-1100
www.islandfcu.com

Island Federal Credit Union will award \$50,000 in scholarships to high school seniors planning to continue their education. To be eligible, students must have an account with Island Federal Credit Union. A debit card and checking account are required; however, there is no minimum balance needed to open or maintain the account. The account must be established in the student's name at the time the entry form is submitted; be a high school senior at the time the entry form is submitted; have received acceptance into a full-time course of undergraduate study as a Freshman at a University, College, Community College, or recognized vocational school. To enter, print out an application from our website islandfcu.com and return it to Island FCU. All winners will be notified via mail and a list of recipients will be published in the Island Quarterly newsletter, as well as displayed in our branch offices.

Save the Date!

NCA Spring College EXPO

Tuesday, April 17, 2018

Hofstra University
Mack Sports and Exhibition Complex

PLAN
For the Future

The College Interview Checklist

✓ Schedule Your Interview in Advance

- Choose a time when classes are in session
- Select a time when another activity of interest is going on (football game, theater production, etc.)
- Avoid dropping in

✓ Make Overnight Arrangements if Necessary

- Request college to send list of area hotels
- Ask if college has spend-a-night programs in residence halls or a “buddy program”
- Ask about places to eat on campus

✓ Be Prepared

- Know the basic facts about the college you are visiting
- Obtain college literature prior to your visit
- Be prepared to talk about yourself, your interests, goals, academic record
- Know what it is you want from a college or university
- Prepare your questions in advance

✓ Parents are Welcome

- Discuss in advance the questions you will ask so they don't get repeated by your parents
- Don't leave it to your parents to dominate the discussion or work at impressing the interviewer

✓ Dress Appropriately

- Simple, neat, comfortable
- Not too casual, not too formal, when in doubt, go conservative
- Avoid flashy, bulky, noisy
- Remove hat!!
- Limit the baggage (backpacks, cases, bags, etc.)

✓ Academic Record

- Be prepared to discuss your academic record (strengths, weaknesses, trends, excessive absences, etc.)
- Bring transcript and test scores with you in case interviewer asks for them

✓ Portfolios, Resumes, Videos, Recommendations

- Bring these items to an interview only if requested, otherwise, save them for your application packet
- Ask ahead of time if your interviewer would like to see your work or ask if appointment can be coordinated with someone who does (coach, art faculty)
- Don't oversell yourself with “packaging”

✓ Questions

- Have some! This demonstrates interest
- Write your questions down and bring them to your interview
- Be prepared to answer questions as well

✓ Arrange for a Campus Tour

- Ask questions of your tour guides – they are usually students
- Visit the important places – library, residence hall, lecture room, labs, studios, dining facilities, etc.
- Get a feel for the campus and students
- Is this where you want to spend the next few years?

✓ Follow-Up

- Get interviewer's name (and e-mail address)
- Follow up with a short, simple thank you note
- Don't be shy – write or call later on if you have questions about the college or the status of your application
- Don't be a pest

✓ Be Yourself

- An interview is a conversation not an inquisition
- Relax, show confidence and interest
- Maintain eye contact
- Confident hand shake
- Your interviewer is just another human

Robert Pertusati, Sr. Associate Dean and Director of Recruitment, Undergraduate Admissions, Stony Brook University

Financial Aid:

What is Available and How to Apply for It

Concerned about how you'll pay for your college education? Of course you are. In these scary times, many students and their parents are wondering how they'll be able to make it work.

One of the most important things you can do is to begin the college application process early. Acceptance into a college degree program is a requirement to receive financial aid. Colleges can't officially offer you a financial aid package until you've been admitted.

All colleges will require you to complete the Free Application for Federal Student Aid (FAFSA) to be considered for financial aid. Many schools also require additional forms, such as the CSS Profile Form or other financial worksheets to help them make a determination about your need. Filing these forms as early as possible is the key to maximizing your chances of getting money. The FAFSA should be filled out as soon after October 1st of your senior year in high school as possible. Contact the college's financial aid office to find out their recommended filing date for both the FAFSA and any other forms that they require. You don't want to lose out on money just because you missed an important deadline.

Most financial aid for college is awarded on the basis of a student's financial need, which is determined through the use of these forms. The FAFSA can be filed online at www.fafsa.ed.gov and is a relatively simple form for most families. Having a copy of your current year's tax return right beside you is the trick. It's a user-friendly form that you DO NOT have to pay someone to fill out for you. If you run into trouble with a particular question or are not sure how to answer something, the financial aid offices at the colleges where you are applying will be happy to help you . . . for free!

Financial aid comes from many different sources and in many different forms:

SCHOLARSHIPS

There are scholarships and grants awarded by some colleges based on other criteria besides financial need. These are usually for academic performance, athletic ability, or in recognition of some other form of achievement. Basically, the student demonstrates a quality that the college values and they want to recognize that quality through some form of scholarship.

These awards vary greatly from one institution to another, so it is important to research all the types of scholarships that the colleges you are applying to offer their students. Looking carefully through the college's websites is a terrific way to learn about scholarships and the criteria needed to qualify. Be sure to check out whether they are renewable each year and what the student will need to do in order to keep them.

NEW YORK STATE EXCELSIOR SCHOLARSHIPS

The *New York State Excelsior Scholarship* covers full tuition for students attending SUNY and CUNY colleges. Up to \$5,500 minus amounts received for TAP, Pell or other awards. A credit from the SUNY/CUNY school covers the difference. For Fall 2018, eligible families include those who earn up to \$100,000. Recipients agree to live in NYS for the number of years equal to awards received. Students must take 30 credits per year and maintain good academic standing. Visit www.hesc.ny.gov/faprograms for more information.

Enhanced Tuition Awards are for New York students attending private not-for-profit colleges in NY State. Up to \$6,000 is awarded through a combination of TAP, Enhance Tuitions Award and a match from the private college. Recipients agree to live in NYS for the number of years equal to awards received. Visit www.hesc.ny.gov/faprograms for more information.

NEED-BASED AWARDS

For many students, help with tuition costs will be based on financial need. This aid may come from the federal government, aid from the state in which you live, or from private funds from the college you plan to attend.

AID COMES IN THREE BASIC TYPES

Grants

Grants are a desirable type of funding because they don't have to be paid back! They can come from the Federal government, state government and the institutions themselves.

To apply for Federal grants, the student completes the FAFSA to determine eligibility for the Pell or Supplemental Educational Opportunities Grant (SEOG).

To apply for the New York State Tuition Assistance Program (TAP) grant, the student starts with the FAFSA, then will be asked to complete a TAP application.

To apply for grants from the colleges themselves, students should work closely with the financial aid offices at the colleges where they are applying to make sure that all necessary forms and deadlines are met.

Work Opportunities

Most students find that holding a part-time job while attending college is critical to paying for their educations. Students may qualify to work through the *Federal Work Study (FWS)* program. Typically, the students work 10-20 hours a week, on campus, in

(continued on page 57)

FINANCIAL AID

(continued from page 56)

exchange for pay. The FAFSA form helps to determine eligibility for FWS. If the student does not qualify for FWS, most colleges also offer regular, on-campus student employment to students.

Loans

Loans are available to students to help them pay for their college education. It is important to remember that loans do have to be paid back. Some loans do allow students to hold off on repayment until after the student graduates or stops going to school.

Federal Stafford Loans/Federal Direct Stafford Loans are guaranteed for every student who is enrolled in a college or approved certificate program at least 1/2 time (6 credits a semester). With each year in school, the maximum loan eligibility increases and students are able to borrow more funds. These are student loans. Parents do not need to co-sign for students in order to borrow through this program. However, parent income information for dependent students is required to determine the type of loan that a student will receive.

Stafford loans come in two types: *subsidized* and *unsubsidized*. There are slight variations in the interest payments that students will make, but the biggest distinction between subsidized and unsubsidized loans is: When does the interest become due? In a subsidized loan, students do not pay interest or principal on the loan while they are in school, then they get a six-month grace period after graduation before they can take up to 10 years to pay the money back. In an unsubsidized loan, students are responsible for making interest payments on the loan while they attend school.

Colleges will determine your eligibility for subsidized or unsubsidized Stafford loans based on the FAFSA information you completed, how much need you demonstrate and how that need compares with the cost of education at the school.

Another loan that is available for students is called the **Carl D. Perkins National Direct Student Loan**. Awarded by some colleges this program provides low interest loans based on need. No repayment of principal or interest is required while the student is in college and is taking six credits or more per semester. The loan is repaid at a low interest rate beginning six months after graduation.

Finally, the **Federal Parent Loan for Undergraduate Study (PLUS)** is available for parents of dependent students. Parents who based on a credit analysis qualify for the PLUS loan, are permitted to borrow money on behalf of their children. They may borrow up to the entire cost of education, minus any aid that the child receives. Parents will choose whether they want the loan payments to begin immediately or if they want the loan to be deferred until after their child graduates from his/her undergraduate program.

HOW IS FINANCIAL NEED DETERMINED?

When students complete the FAFSA, the information they provide is run through a methodology prepared by the Federal government and an Estimated Family Contribution (EFC) is determined for each student. This is not the minimum or maximum amount that a student has to pay, but rather represents the minimum amount a child CAN contribute toward his/her education, according to the Federal Government.

Based on the EFC, colleges then make determinations about eligibility for grants, work and loan awards at their institutions. They use the EFC to create a Financial Aid Package for students.

THE FINANCIAL AID PACKAGE

Most students who are eligible for assistance receive what is referred to as a "financial-aid package." This "package" usually is comprised of several types of aid – grants, jobs and loans, which in total meet the student's unmet financial need.

Colleges can only prepare and send a financial-aid package to admitted students. Once students receive their award letters, they begin to compare one offer to another to determine the affordability of a particular school.

SO...WHAT SHOULD I DO NOW?

You're off to a great start by attending the EXPO today! Selecting the institutions to which you'll apply is the first step. Don't forget to include 'financial fit' in the mix, along with academic and social fit as you consider among your choices.

You can begin to research what each institution on your short list offers in the way of scholarships and financial aid, pay attention to deadlines and required forms and begin to formulate a list of questions you have regarding financial aid.

In your senior year of high school, as soon after October 1st as possible, you'll fill out the FAFSA form. And that will start the ball rolling.

You'll want to follow all instructions carefully, pay attention to important deadlines and keep all your information in a safe and organized place.

OTHER SOURCES OF FINANCIAL AID

There are other sources of financial aid which have not been mentioned here. Many religious and community organizations offer scholarships. Many companies offer educational aid for their employees' sons and daughters. Start researching scholarship and grant opportunities on the web. And remember . . . **DON'T PAY ANYONE TO FIND YOU MONEY!** You can do this on your own.

GOOD LUCK!

GOTOCOLLEGEFAIRS.com

Streamlining the College Fair Circuit

Students!

Register online today at www.gotocollegefairs.com to attend the college fairs

Why should I pre-register?

Maximize your time at the fair!

Provide your information one time through our simple, online registration page instead of dozens of times on prospect cards at each college table.

Ensure your personal data is accurately and securely shared with colleges and universities of your choosing.

- Increase face-to-face time with admissions Officers. Spend time learning more about their schools.

How does online registration help me?

Registering for a college fair through our simple, online registration page allows you to easily input your personal information, elaborate on your special interests, extracurricular activities, and unique accomplishments.

Bring this barcode with you to the fair and start visiting college and university tables.

College representatives will have a barcode scanner to securely capture the registration information you provided online, saving you *both* a lot of time and effort.

Register today!

Two days prior to the fair, you will receive a reminder email with your barcode attached.

- ◆ Stop in the school computer lab or register on a computer at home
- ◆ Registration is web-based, so you can register from any computer, anytime

How does this work?

- Students access www.gotocollegefairs.com website
- Click on the "Student Register Now" button
- Select the state and choose the fair to attend
- Complete the registration form (you may decide to complete only mandatory questions)
- Check the "terms and conditions box" and submit the form
- The barcode is displayed – they print the barcode and they're done!

Already registered for a previous event?

*Use your current username and password to add another fair.
No need to create a new registration*

New Feature

Students register online at www.gotocollegefairs.com

SAMPLE COLLEGE APPLICATION ESSAY QUESTIONS and Tips for Writing Your Essay

By Robert Pertusati, Sr. Associate Dean and Director of Recruitment
Undergraduate Admissions, Stony Brook University

Sample Essay Questions

- What person (current or historical) do you most admire and why?
- Describe an experience that has given you great satisfaction.
- What do you feel are the most significant issues facing the world today? Why?
- Describe an experience from a play, film, or book that has been instrumental in changing your viewpoint.
- Discuss one or two academic experiences (books, projects, or papers that you have done; a specific course or subject in school) that have meant the most to you during your secondary years.
- List the books that have had the greatest impact on you during your life, and briefly discuss one of them.
- For which one of your personal qualities would you want to be remembered by your classmates?
- Identify and discuss a significant problem facing your generation that has had a special significance for you.
- Discuss any academic/intellectual interests that are especially important or meaningful to you.
- Discuss nonacademic interests that have been most meaningful to you.
- Analyze a problem that faces you or your community, region, or nation. How did the problem develop and how might it be solved?
- Whom would you like to interview and why?
- Ask a provocative and revealing question of a college applicant. Now that you have asked it, answer it.
- Describe the greatest challenge you have faced or expect to face.
- If you could create a national holiday, what would you choose to celebrate?
- If you could spend a day with anyone, who would it be, and how would you spend your time?

Tips for Writing Your Essay

The Dos

- Be sure you understand and answer the questions. If there is more than one part, answer what is asked of you in each part.
- Confine your answers to the space provided.
- Type your essay unless you are specifically asked to respond in your own handwriting. Use ink, and be sure your responses are neat and legible.
- Be accurate and write sincerely in your best natural style. Use simple and concise language.
- You should be sure to write a draft; edit, revise, and write a final essay before copying it onto the application form.
- Write your essays yourself. Although you may seek help from your counselor, teacher, or parents in selecting a topic or in editing, you must first do the writing. College Admission Committees are not easily fooled.
- If you are offered an optional essay or paragraph, do it. It will show you care and are willing to go the extra mile.

The Don'ts

- Avoid trying to guess what the college wants you to say. There are no "right" answers to the essay questions.
- Avoid being flippant or expressing yourself in poor taste.
- Avoid trying to be funny or clever. If you are naturally humorous and clever in the use of language, exercise your talent, but avoid trying to force humor.
- Avoid merely listing again your activities in your essay.
- Avoid using ornate, pretentious language.

PROJECT SUMMER:

Building Blocks for a Successful College Application

By Robert Pertusati, Sr. Associate Dean, Director of Recruitment,
Undergraduate Admissions, Stony Brook University

If you're planning to apply to college in the next several years, you're likely to face increasing competition as the number of applicants is expected to continue to increase. That means an impressive college application is critical during the admissions process.

Much like developing an eye-catching employment resume, you must set yourself apart by carefully packaging your talents and accomplishments to catch the attention of savvy college admission officers who review and render decisions on thousands of applications.

While academic credentials and college entrance exams continue to play important roles in determining "fit" between student and college, there is increased attention paid to those unique activities you involve yourself in beyond the classroom. That includes your summer choices.

If you're eager to step away from an academic setting, you will find many opportunities to enhance your applications and provide you with life-long learning. These include volunteerism and community service.

Colleges today are placing great emphasis on how students give back to their communities. Not only does this demonstrate commitment to a cause and concern with helping others, but it also implies that students will continue to be active participants in their new college campus communities.

In reviewing thousands of college applications each year and in interviewing hundreds of prospective students, I often learn of so many incredible examples of how students support their communities. These include: participating in hurricane relief efforts at the site of the disaster, staffing food shelters, participating in literacy programs for both children and adults, as well as playing leadership roles in local houses of worship.

Many other students serve as mentors to younger children in numerous community-based programs. Volunteerism in community service speaks to your character, leadership and integrity – all key elements of successful college-bound students.

You can also choose to demonstrate your readiness for college by taking advantage of academic opportunities, which include enrolling in classes and participating in summer research programs on college campuses.

Not only does this provide access to intellectually stimulating experiences, but it also engages you in culturally rich exchanges with college students and faculty. Earning college credit during the sum-

mer may be applied to your academic record at institutions across the nation and demonstrate your interest and ability to master challenges.

Research programs encourage you to actively participate in the learning process by asking questions such as "why" and "under what circumstances does this hold true" as you test the accuracy and validity of information in which they are presented.

During college planning presentations, I regularly ask high school students if they accept or question information that teachers present them in class. Their responses are generally mixed, however, I encourage them to question that information. Learning should be active, not passive.

Many students seek opportunities to study abroad in countries across the globe. Not only does this provide insight into other cultures, but also allows you to put to good use your language skills acquired in high school foreign language classes. These experiences are both academically enriching and a great deal of fun. Group tours are the most popular as they are well organized and structured. In many cases, you may take formal classes in academic institutions within these countries, or simply participate in cultural experiences that will expand your intellectual curiosities.

Now that you have availed yourself of these dynamic opportunities, what's next? It is important that you be prepared to discuss these experiences with admissions officers during college interviews.

We enjoy being engaged in conversations with you and want you to share with us your passions – what makes you unique. Tell us what you've learned from these summer experiences and how they have impacted you.

Very often your college essay will be another vehicle through which you can describe to us the depth and impact of your summer journey. Be creative, be direct, be sincere! Don't tell us what you think we want to hear, but rather what it is you truly have to say. After all, we are "people people" not the "gate keepers" we are often accused of being. We enjoy learning of your journeys both in and beyond the classroom and are sincerely committed to helping you find the right "fit" in the college admissions process. Seek out those opportunities that match your interests and goals and you will find that the key to your college success begins with self-discovery and active participation. Enjoy the journey!
